

Dear [Company Name] Finance Department,

We are writing to inform you of a unique opportunity with UC Irvine's Engineering Student Council (ESC), a vital liaison among undergraduate engineering students and the faculty, staff, and administration of our school. ESC is comprised of more than 150 members whose backgrounds span the entirety of engineering and its broad specializations. These members continue their passionate pursuit of engineering in ESC through efforts to create opportunities for students, faculty, and businesses to interact with each other. Additionally, ESC provides camaraderie and access to experience for underclassmen and students in the surrounding communities through mentorship programs and community events with the desire of creating well-rounded and knowledgeable underclassmen.

As ESC continues its service-oriented mission, we look to companies in the technology industry as valuable sponsors. We offer varying levels of sponsorship in order to best suit our sponsor's interests. Please see the attached Sponsorship Package for full details of each.

These levels of partnership would foster a deeper relationship among students, the community, and companies. Our sponsors would have substantial exposure to future members of industry and prospective community members interested in technology and innovation.

If partnering with ESC is something that interests you or if you have questions, please do not hesitate to contact us. If there is anything else you would like to request for consideration, please let us know. We look forward to hearing from you and thank you again for taking the time to read this.

Best regards,
